To the United Nations, Human Rights Organizations, Organizations of
Political Prisoners, and all philanthropist individuals and organizations:***

Your Excellencies:

We, the spouse as well as the sons and daughters, are the family of Esmail Mohamadi a Kurdish political prisoner incarcerated in the Urumia prison for the past two years on charges of co-operating with the Komala – Party Iranian Kurdistan. After two painful years of hard work, expressing protest against his sentence of capital punishment, and trying to have the sentence rescinded, we are now told that his sentence has been upheld by the Supreme Court of the Islamic Republic of Iran.

We are his wife and his five sons and daughters namely Monira, Hiro, Aako, Diako, Trooska, and Treefa and collectively implore to you all to make all and every efforts to save the life of Esmail Mohamadi, our beloved father and dedicated husband. No effort is too small and there's no time to spare, therefore, would you please don't leave any stone unturned in order to save Esmail from the beast of death?

Yours Respectfully

The family of Esmail Mohamadi
